High Availability Intro

Learn Kubernetes by Doing : K8s Hard Way

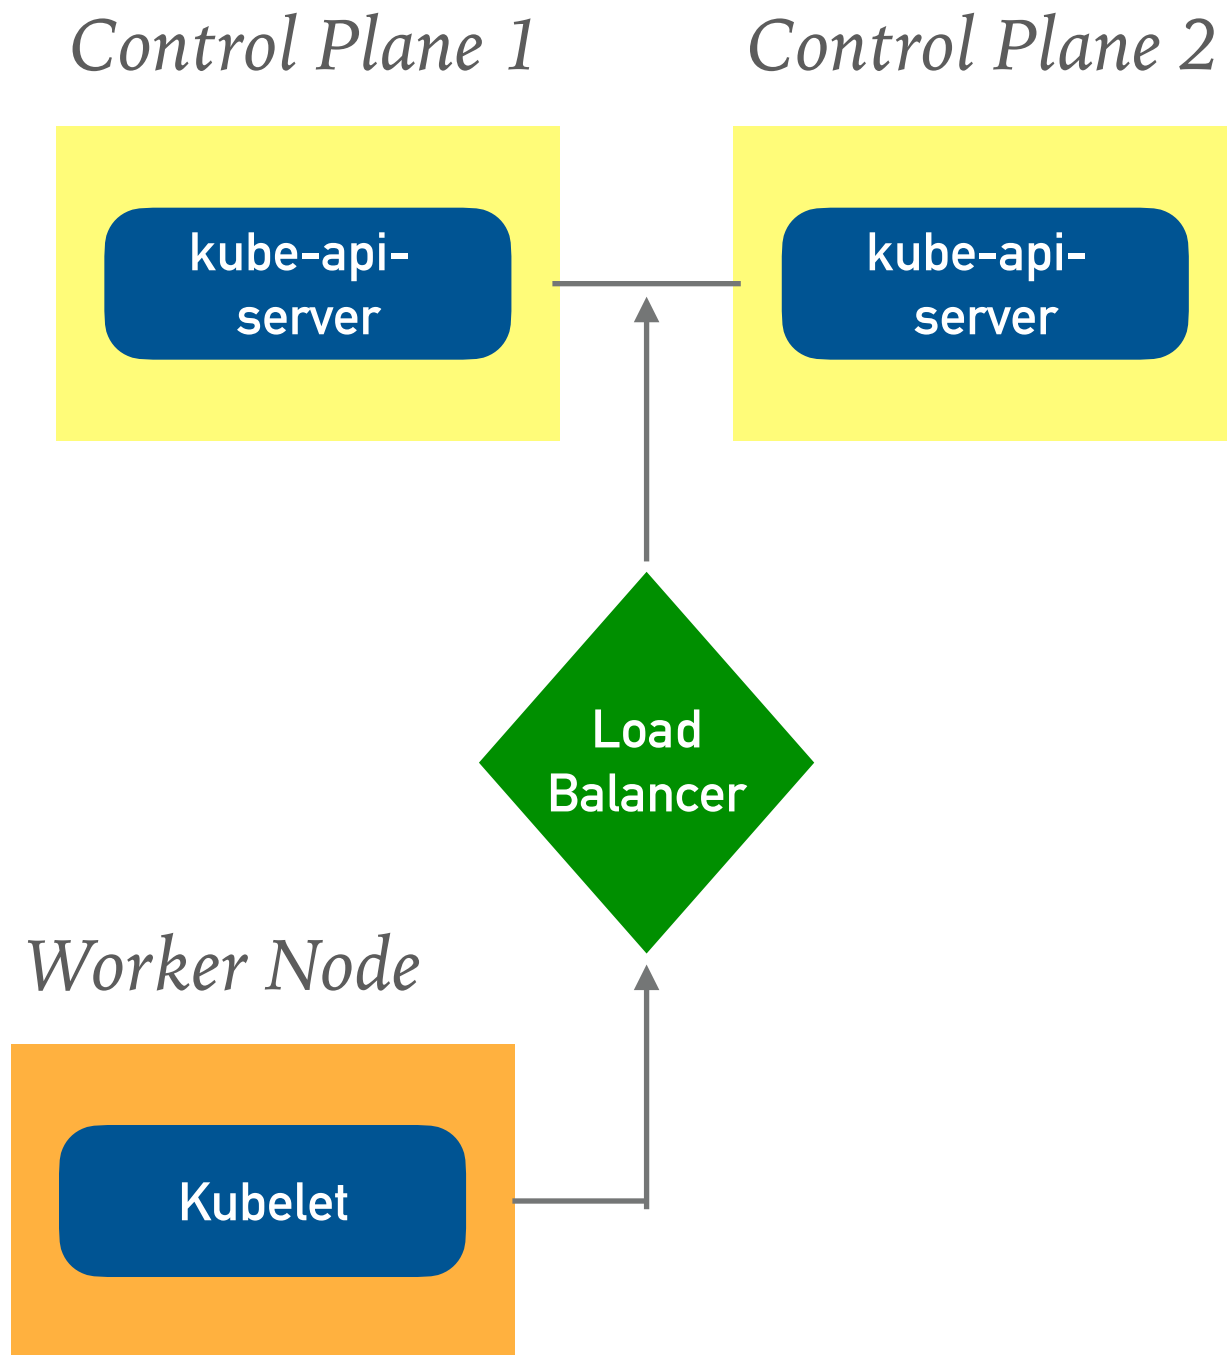

- High Availability in K8s -
- What High-Availability Mean
- HA Control Plane
- Etcd Management

Learn Kubernetes by Doing : K8s Hard Way

- High Availability in K8s -
- K8s facilitate HA Applications.
- Infra HA is necessary.
- Cluster also needs to be highly available to support Application HA.

Learn Kubernetes by Doing : K8s Hard Way

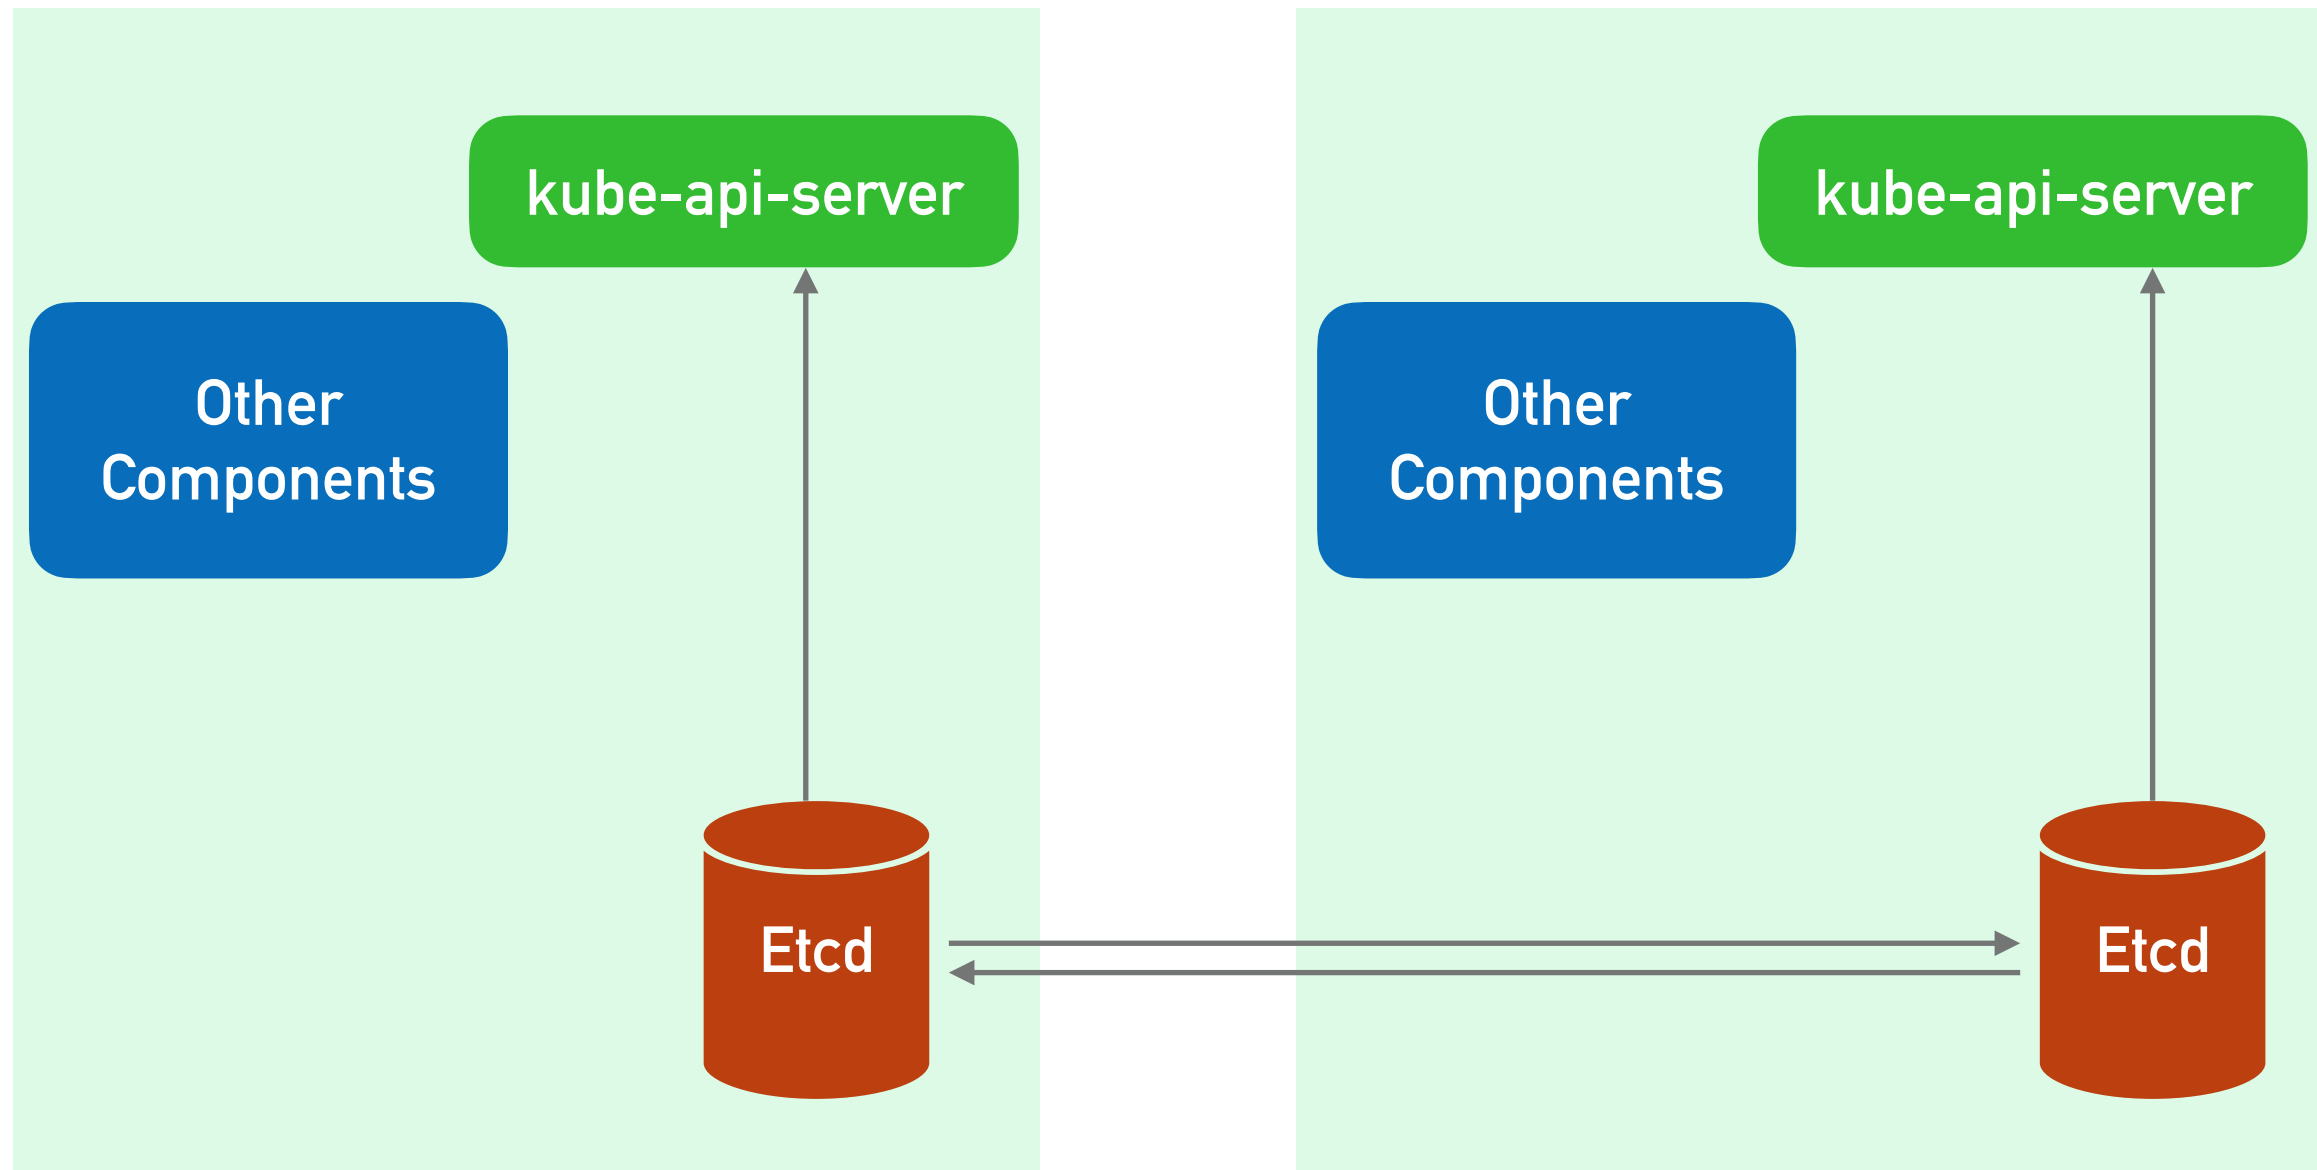

- High Availability in K8s -
- To Facilitate Cluster HA, we need multiple Control Planes.
- User needs Load Balancer to Comm. with multiple Control Planes.

Will see you in Next Lecture...

Thank you!

A close-up photograph of a hand holding a black marker, completing the cursive word 'Thank you!' on a white surface. The marker is positioned at the end of the exclamation mark, and the hand is visible on the right side of the frame.
